JOE HOXIE. DANBURY, Sept. 26 .- The Union men of Danbury and neighborhood turned out on masse to day, the occasion being the raising of a pole and a Grant and Colfax banner. The Hon, L. S. Fosice ably and elequently addressed the assemblage from the steps of the Turner House. His speech was full of that sound reasoning and convincing logic for which he is so widely noted. No one Thy Real, in Springfield, Mass., on Saturday night, at | who heard his masterly effort could fail to be convinced that the salvation of the country depends upon the success of the Union ticket in November. A grand torchilent procession of the Grant and Colfax Legion paraded the principal streets in the evening, headed by a band of muprincipal streets in the evening, headed by a band of nusic. The wildest enthusiann was manifested by the people along the line of march. The speaker of the evening,

loyal men of Danbury a stirring, earnest, and elequent
speech. He spoke in glowing terms of the fitness of Grant

ACCIDENTS AT THE MORRIS AND ESSEX RAILROAD DEPOT, NEWARK.

TWO MEN KILLED-DESTRUCTION OF PROPERTY. The depot of the Morris and Essex Railroad, at Newark, was the scene of two accidents, resulting in loss of life, and one involving great destruction of property, on Saturday night. The first accident occurred a o'clock. A coal train of 36 cars, drawn by the powerful Engine No. 37, was brought to a standstill at High-st., on the heavy down grade of the road, about one-eighth of a mile from the depot, by the display of signals of danger, the draw of the bridge over the Paissic River being open. At the same time the Engine Dover was being switched off to allow it to back mot the paint shop, a brick building on the east end of the depot, and separated from the latter by Spring street. Nathan Nichole, the engineer of the coal train, seeing that the signals of danger were about to be removed, endeavored to start the train with the brakes on. Falling in this, he sounded his whistle for "brakes of," but no sooner were they removed than the train began to descend the grade, gaining speed with depot, it was moving with tearth velocity. MURDER IN JERSEY CITY.

A stabbing affray took place at 8 o'clock last evening in South Second, near Grove-st., Jersey City, which resulted in the death of one John Reilly. Reilly, it appears, has only been in this country since nesday last, and yesterday he went with his brother Thomas and some other friends "to enjoy" himself in Jersey, and get introduced to some people there who had known him in the old country. One of those old friends was Tommy Martin, to whom the new arrival was duly introduced. By some means, yet unknown, Thomas Reilly and Martin, who had up to that time been the best of friends, quarried, and from words came to blows. A disgraceful scene then followed, joined in by some of Martin's acquaintances, and above the noise of the conflict could be heard the trunt of one of the men that another was a Black Republican. Almost immediately after those words were uttered, Martin gave Thos. Reilly three blows in the face, and then ran into his own house adjoining, but was not long absent when he again appeared, and asked who was the person that dared say anything to him. Reilly's party then faced him; but they had not gone far when John Reilly interposed and attempted to prevent further fighting. His interference, however, came too late. Moran was excited, and, with a kinfe which he had in his hand, stabbed the first of the party whom he met, which happened to be John Reilly; and, in his fury plunged the kinfe three or four times into the man's body. John was immediately taken into Mr. Cunningham's store at the corner of Third st., and a physician at once sent for, who found one wound immediately over the apex of the heart, another about two inches lower down, and a third on the hip. The stabs were evidently given by a large penkinfe. The physician says that death must ensue in three or four hours. Those coccerned in the affray had had some drink, but were not intoxicated. Thomas and some other friends "to enjoy" himself in

I seek for my former physician, and stated to him that I was taking Your medicines; and after showing them to him, and having tosted them, &c., he replied: "You can take them if ou like. They will do you no harm. He said: "You know what I told you last Semmer, and I say the same now. If you have any business t had not seen you. The account time that you called, finding me still galning, you gave me encouragement, saying: "My symptoms were improving; the PULMONIC SYRUP, SEAWHED TONIC, and MANDRAKE PILLS had acted like a charm." My circulation, my cough, mr appetite, all began to improve, and I could walk about my rooms a superite, in tegen to improve, and reconstant and found me in-proving, and told me not to go out of my room until the first day of Mar. I took no cold while under your treatment, my appetite became first-rate, and you told me to eat everything I wished of a nutritious nature, and to exercise about the room as much as possible.
